

Press Release - FDI Quality System Completes Successful AS9100/AS9120 Audit

BY FEDERAL DEFENSE INDUSTRIES, INC.

FDI Announces Conclusion to a Successful Audit

Moorpark, CA (November 16, 2016) - Federal Defense Industries (FDI) is pleased to announce the successful completion of its annual Quality Management System Surveillance Audit. FDI passed the audit with a four rating, which is the highest process effectiveness level possible; and there were no findings of any major or minor nonconformities.

FDI is audited annually to verify that the company's processes are successful; and every three years an audit is required for standards re-certification. With the completion and passing of this audit, FDI maintains its AS9100C and AS9120A certifications through December 25, 2017.

Additionally, FDI has satisfied all requirements for certification to FAA AC 00-56 Rev B. A letter of conformance from FDI's Registrar is available here: www.fdi.us.com/static/files/pdf/FDI%20Letter%20of%20Conformance%20FAA%20AC%2000-56B.pdf.

“The achievement of fully realized planned activities and fully realized planned results, combined with no major or minor nonconformities, are excellent audit results” said Philip Ochoa, FDI's President. “These results stand as our record reflecting the FDI team's robust commitment to provide the highest quality products and service to our customers, the United States Military and our Allies. We want the products to be right, every time.”
